

YAMIN

Full Stack Developer

I have 3+ years of experience as a full stack developer. As a developer, I know how to deliver all features for production and development. I am always trying to learn more technologies to build mobile first, responsive, SEO-friendly modern websites and improve my development skills. I am experienced in NextJS (ReactJS) and React Native. At build time, I focus on quality coding, understanding coding, Git version and good teamwork.
